

# GEORGETOWN ARTERIAL PAVING PROJECT

Summer 2017

## PROJECT OVERVIEW

S Michigan St, along with several blocks of Corson Ave S and a block of S Bailey St, are all heavily traveled in the Georgetown community and are showing the wear and tear of use.

We are repaving these roads to repair the potholes and cracks in the roadway. Construction began in mid-August and is expected to last 3 to 4 months.

See reverse for a map of the construction area.

## PROJECT COMPONENTS

Crews will remove the top 2 inches of asphalt, perform repairs where needed, and repave the following streets with new asphalt:

- S Michigan St from 4th Ave S to Corson Ave S
- Corson Ave S from S Michigan St to S Orcas St
- S Bailey St from Corson Ave S to Carleton Ave S

We will also:

- Install new drainage catch basins where water currently ponds in the road
- Replace sidewalks and curb ramps in select locations, in accordance with the Americans with Disabilities (ADA) Act
- Restripe all existing lane markings and crosswalks

## BENEFITS

Each year, SDOT paves arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a state of good repair helps lower the cost of future maintenance.

This project is funded by the 9-year Levy to Move Seattle, approved by voters in 2015. Learn more about the levy at [www.seattle.gov/LevytoMoveSeattle.htm](http://www.seattle.gov/LevytoMoveSeattle.htm)

*An example of wear and tear on S Michigan St in Georgetown.*

## WHAT YOU NEED TO KNOW

- Construction started in mid-August and is expected to take 3-4 months to complete
- Normal work hours are Monday through Friday 7 AM – 5 PM. To accommodate heavy daytime traffic volumes, frequent night and weekend work is also expected and will be communicated in advance.
- Lane closures will be in effect around the active work zone. However, S Michigan St, Corson Ave S and S Bailey St will otherwise remain open throughout construction.
- Some side streets may be closed for short periods
- Sidewalks will remain open, although corners with new curb ramps may be closed for installation. In such cases, signed detours will direct those walking.
- Businesses, offices, and services will remain open throughout construction.
- Our outreach team will provide regular updates via email and the project webpage, and monitor the project email and phone line.
